Subject: MLPAComments: Just say no to MLPA

I think this initiative will be a huge mistake for California. I live in San Diego and fish off our coast. By closing this public area to fishing the impact will be huge. Not only will I not buy a US fishing license, I will fish entirely in Mexico. This will be a revenue loss to a lot of people. If this area is closed, I have an option-to fish South. Other folks will not!

Please consider what you are doing to my recreation, and livelihood of others. This Ocean is public so denying access would be like closing forests. We pay taxes, and deserve to be represented as users of the ocean. Reconsider what you are doing Please.

Ron Sees

A concerned fisherman and resident of California
